[INTRO]

B^bm // G^b // A^b // B^bm //

[VERSE 1]

B^bm **G^b**
You wondered where we would be
A^b **B^bm**
I've seen your eyes closed
B^bm **G^b**
Glazed and gone I watched you far away
A^b **B^bm**
Close not knowing me
B^bm **G^b**
Looking past what made me stronger
A^b **B^bm**
Hating time, oh, eager moments
B^bm **G^b**
Sharp rewinds I just look forward
A^b **B^bm**
Close my eyes and walk on

[PRE-CHORUS]

B^bm **G^b**
Your revolution medicine was so strong
A^b **B^bm**
I took a sip and fell right back down
B^bm **G^b**
Jumped back to see a picture
A^b **B^bm**
I kept diving in so wrong

[CHORUS]

B^bm **E^bm**
And it's cold outside and the night would fall
A^b **G^b**
And we wonder where we left it all
B^bm **E^bm**
These piles I've made of my stubborn pride
A^b **G^b**
We've been cleaning up it's so nice inside

[INTERLUDE]

B^bm // E^bm // A^b // G^b //

[VERSE 3]

Your love and Your grace never change
It's the greatest mystery
You've seen all I've done, how I've run
And my broken history
The cost, You paid for at the Cross
Help me see me like You do

[PRE-CHORUS]

[CHORUS] x2

B^bm // E^bm // A^b // G^b //

[INSTUMENTAL]

B^bm // G^b // A^b // B^bm //

[BRIDGE] x4

B^bm **G^b**
And we left it, all and we left it all,
A^b **B^bm**
And we left it all outside tonight
